FIRST-JOB GOVERNMENT REQUIREMENTS IN THE PHILIPPINES

A source-based data research paper for the Requisito requirements planner

Document type: Data research paper and implementation handoff

Prepared: 20 October 2026

Source-check window recorded in this paper: 19–20 October 2026

Scope: Nine Philippine government-document processes relevant to first-job planning, with a six-record First Job data handoff.

Research limitation: Government procedures, fees, eligibility rules, forms, and processing times can change. Items listed as unresolved must remain flagged and must not be represented as confirmed production values.

Abstract

Keywords: First Job; Philippines; government requirements; source verification; data quality; Requisito; conditional checklist

1. Research overview and objectives

This report consolidates research for Requisito's illustrative First Job checklist. It covers nine processes: SSS Number, PhilHealth PIN and employee registration, Pag-IBIG MID, BIR TIN, NBI Clearance, PhilSys National ID, PSA Birth Certificate, DFA passport, and LTO Student-Driver's Permit.

The main design conclusion is conditionality: these nine items are not a universal mandatory checklist for every jobseeker. Employer-related registrations should be coordinated with HR, while passport and student-driver's permit are goal-specific. A PSA birth certificate and National ID may support identity workflows but should not be forced as universal prerequisites.

Strongest directly verified findings from the 19 October 2026 source review: the BIR 2026 Citizen's Charter supports a no-fee, within-10-days first-time TIN route for hired employees without an existing TIN who earn purely compensation income in the Philippines, through employer/ORUS with a manual Form 1902 fallback; PhilHealth's formal employee route and employer ER2 reporting within 30 days were directly inspected; DFA appointment booking is free, but passport issuance is not thereby free; and NBI's eligible First-Time Job Seeker route is free, with an unresolved Oath-of-Undertaking discrepancy between the Charter checklist and how-to instructions.

Important open issues remain: standard NBI fee mapping and general validity; NBI FTJS Oath/Form 2 counter handling; Pag-IBIG fees, complete workflow and service time; the complete current PhilSys accepted-document list; DFA current issuance fee and delivery windows; LTO current student-permit fee and eligibility details; and PSA Serbilis price/inclusions.

Final readiness decision: READY WITH EXPLICIT LIMITATIONS. The document is suitable as a research handoff and conditional product-content reference, but unresolved fees, timings, and incomplete checklists must not be promoted to confirmed production values.

2. Methodology and evidence standards

Official agency pages, Citizen's Charters, and official forms were prioritized. Legal text was used for statutory context. Each material claim was compared with the specific content available from the source, not merely the existence of a URL.

- Directly opened/readable means the page or PDF body was inspected and supported the stated narrow claim.
- Indexed-only means an official search-index excerpt was visible but the underlying page/PDF could not be directly read; this is not sufficient by itself to verify exact fees or current procedures.
- Inaccessible/unreadable means the tested official URL returned 403/404, timed out, triggered CAPTCHA, or exposed only a loading/placeholder body. The limitation is retained rather than inferred away.
- Source publication/revision dates are recorded separately from the actual check date. Most live-source checks documented here occurred on 19 October 2026; this document was finalized on 20 October 2026.

Limitations: no interviews, agency confirmations, live appointment booking, payment transactions, or complete end-to-end government application tests were performed. The uploaded repository ZIP was inspected read-only for the data handoff and planner audit; the repository itself was not modified. A portal interface does not prove public API availability or Requisito integration.

3. Findings: Government-document processes

How to use these guides: follow the numbered steps for the document you actually need. These nine processes are not all mandatory for every jobseeker. Check for an existing number or record before starting a new registration. Where a fee, document list, eligibility rule, or processing time is marked unresolved, confirm it with the agency before paying or travelling.

3.1 Social Security System (SSS) Number

Purpose and scope: identify a member for SSS records and employment coverage. Number issuance, employer reporting, and employee coverage are separate concepts.

Step-by-step application guide:

1. Ask whether the person already has an SS Number. If yes or uncertain, use SSS recovery/inquiry before any new-number route; SSS numbers are for life and duplicate creation must be avoided.
2. For a first-time member, follow the SSS “Become an SSS Member” instructions and linked online/E-Center route. The information page describes an email link with a five-day window and optional supporting-document upload in the stated flow.
3. Preserve the distinction between a temporary number and permanent status. SSS lists supporting-document rules for permanent status; the exact acceptable document should be checked for the applicant’s situation.
4. Coordinate employer reporting/coverage with HR. Do not imply that obtaining a number alone proves active employee coverage or issues a physical ID card.

Fees/time: no fee or guaranteed processing time is claimed in this report. Official information page was readable; the linked member portal timed out during the audit, so its live transaction UI was not tested.

Primary sources: https://www.sss.gov.ph/become-an-sss-member/ ; https://www.sss.gov.ph/employees/ ; https://member.sss.gov.ph/ (linked official portal; direct access timed out).

Evidence status: VERIFIED for the scoped information-page claims; live portal execution not tested. Last source check: 2026-10-19.

3.2 PhilHealth PIN and formal employee registration

Purpose and scope: employee record registration for a formal-economy hire. Do not generalize this route to self-paying, informal, or other membership categories.

Step-by-step application guide:

5. Ask whether the employee already has a PhilHealth Identification Number (PIN). If yes, provide it to HR; the inspected instructions describe employer reporting through ER2.
6. If the formal employee has no PIN, the official registration page says to submit two PMRF copies to HR.
7. The employer reporting page states that newly hired employees are reported through ER2 within 30 days from assumption.
8. Keep legal coverage, record registration, employer reporting, and contribution remittance distinct. Confirm completion with HR.

Fees/time: no registration fee or processing time was stated in the inspected pages. The 30-day deadline is the employer’s reporting timeline for newly hired employees, not a universal applicant deadline.

Primary sources: https://www.philhealth.gov.ph/members/formal/registration.php ; https://www.philhealth.gov.ph/partners/employers/report.php

Evidence status: VERIFIED for formal-economy employee route and employer ER2 reporting scope. Other membership categories require separate research. Last source check: 2026-10-19.

3.3 Pag-IBIG Fund Membership ID (MID)

Purpose and scope: membership identification and record lookup. The complete current route, employer/manual alternatives, fees, and service time remain only partially verified.

Step-by-step application guide:

9. Check for an existing MID/registration tracking reference (RTN) first. The MID Inquiry page asks for RTN, surname, and birthdate; avoid repeat registration when an existing record may be recoverable.
10. The current online registration interface visibly offers a National ID QR/liveness route and an alternative route for people without a National ID.
11. Follow the live official registration instructions for the applicant’s chosen route. Do not state that Requisito integrates with an agency API, that MID issuance is instant, or that walk-in processing takes 15 minutes.

Fees/time: unresolved. The current full Citizen’s Charter and complete employer/manual route were not directly readable in this audit. MDF V12 (dated 11/2024) appears in official indexed text, but direct PDF access triggered CAPTCHA.

Primary sources: https://www.pagibigfundservices.com/OnlineMembershipRegistration ; https://www.pagibigfundservices.com/virtualpagibig/Membership.aspx ;

https://www.pagibigfundservices.com/virtualpagibig/MIDInquiry.aspx ; https://www.pagibigfund.gov.ph/document/pdf/dlforms/providentrelated/PFF039_MembersDataForm_V12.pdf

Evidence status: PARTIALLY VERIFIED. UI options and MID inquiry fields directly inspected; fees, complete workflow, API, instant issuance and service-time claims remain unverified. Last source check: 2026-10-19.

3.4 Bureau of Internal Revenue (BIR) Taxpayer Identification Number (TIN)

Strict applicability: first-time hired employees who do not already have a TIN and earn purely compensation income in the Philippines. Do not generalize this process to all TIN applicants.

Step-by-step application guide:

12. Check for an existing TIN before initiating registration. Never create a second TIN.
13. For the described already-hired employee route, the 2026 BIR Citizen's Charter documents employer/ORUS processing.
14. The Charter states registration within 10 days from the date of employment and no processing fee for this scoped route.
15. A manual Form 1902 route is retained as a fallback where applicable. The Charter lists service standards of three days online and six hours manual; these are service standards, not guarantees where documents or systems delay processing.

Fees/time: ₱0 processing fee and the 10-day deadline are VERIFIED within the narrow scope above. Do not use these claims for a person who already has a TIN or has a different income/member category.

Primary source: https://bir-cdn.bir.gov.ph/BIR/pdf/BIR%20Citizen%27s%20Charter%20%282026%20Edition%29v2.pdf ; supporting checklist: https://bir-cdn.bir.gov.ph/BIR/pdf/CDR%20-%202025%20%281%29.pdf ; ORUS: https://orus.bir.gov.ph/

Evidence status: VERIFIED for scoped claim. The Charter PDF was directly opened; ORUS transaction UI itself did not expose a readable body during the audit. Last source check: 2026-10-19.

3.5 National Bureau of Investigation (NBI) Clearance

Standard clearance route

Step-by-step application guide — standard clearance:

16. Use the official NBI online process to create/confirm a profile, choose a branch and appointment, and obtain a payment reference; bring the required identity documents to the appointment.
17. The inspected standard Charter/how-to materials support a two-government-ID requirement, but exact acceptable combinations should be checked against current NBI instructions.
18. Do not publish a fixed ₱155 total: the how-to page says ₱130 base plus an e-payment fee "usually around ₱25–₱30", while the Charter lists ₱115/₱165/₱415 without clear category mapping.
19. Do not state a general one-year validity period or guaranteed same-day release. HIT/quality-control cases may require return or further processing.

Standard route evidence status: PARTIALLY VERIFIED. Fee mapping and general validity unresolved. Sources: https://nbi.gov.ph/citizens-charter/nbi-clearance-application/ ; https://nbi.gov.ph/how-to-apply-nbi-clearance/ ; https://clearance.nbi.gov.ph/

First-Time Job Seeker (FTJS) route

Step-by-step application guide — First-Time Job Seeker exemption:

20. Use only if the applicant qualifies under RA 11261 and the applicable one-time fee-waiver conditions.
21. The FTJS Citizen's Charter supports a free route, Barangay Certification on official letterhead with dry seal/signature, and two valid government IDs or acceptable certificates.
22. The NBI how-to page says FTJS applicants must bring the original physical Barangay Certification and signed Oath of Undertaking to the branch. The Charter checklist omits the Oath, creating an unresolved document-handling discrepancy.
23. Bring the original Barangay Certification, two IDs/acceptable certificates, and signed Oath in person as the how-to instructs. No inspected source establishes an online upload requirement.

Fee: ₱0 for eligible FTJS route. The fee exemption is conditional, not a general free-clearance entitlement. The source conflict about Oath/Form 2 handling remains open.

Sources: https://nbi.gov.ph/citizens-charter/nbi-clearance-first-time-job-seekers/ ; https://nbi.gov.ph/how-to-apply-nbi-clearance/ ; https://lawphil.net/statutes/repacts/ra2019/ra_11261_2019.html ; https://www.ble.dole.gov.ph/wp-content/uploads/2022/06/FORM2-Oath-of-Undertaking-asof16June2021.pdf

Evidence status: free route and core checklist VERIFIED; Oath submission/counter handling PARTIALLY VERIFIED due Charter/how-to mismatch. Last source check: 2026-10-19.

3.6 Philippine Identification System (PhilSys) National ID

Purpose and scope: a national identity credential and one possible identity pathway; not a universal prerequisite for the other documents or for employment.

Step-by-step application guide:

24. Check the current official registration location and supporting-document list before travel.
25. Attend an official registration centre with accepted supporting document(s); do not treat examples from older regional announcements as a complete current list.
26. Do not require a passport or driver permit solely to obtain a National ID unless a current official list specifically establishes that requirement.

Fees/time: no fee or delivery/issuance time is asserted here. The dedicated supporting-document page returned 403 and other registration material was not fully readable; the complete current accepted-document list remains unresolved.

Primary sources: https://philsys.gov.ph/registration-process/ ; https://philsys.gov.ph/supporting-documents/ ; https://maintenance.register.philsys.gov.ph/ ; supporting regional release: https://rsso11.psa.gov.ph/content/press-release-national-id-registration-and-other-national-id-services-continue-davao-del

Evidence status: PARTIALLY VERIFIED. Last source check: 2026-10-19.

3.7 Philippine Statistics Authority (PSA) Certificate of Live Birth

Purpose and scope: civil-registry evidence that may support other processes. It is not a universal prerequisite for every First Job checklist item; requester authorization and confidentiality rules may apply.

Step-by-step application guide:

27. Choose an authorized PSA ordering channel and provide the required birth-record details.
28. For physical walk-in transactions at Census Serbilis Centres, the directly inspected PSA service page states that an appointment is required.
29. Keep online ordering/delivery separate from physical walk-in appointment rules and from the particular channel's fulfillment options.

Fees/time: the exact PSA Serbilis ₱330 price and inclusions remain PARTIAL because official FAQ/terms pages resolved but their substantive body did not render. PSAHelpline's opened page showed a different ₱365 price; do not transfer one channel's price to another. The PSA advisory dated 2026-02-20 confirms the redesigned Serbilis site is operational but does not state the ₱330 price.

Sources: https://psa.gov.ph/birth-certificate ; https://psa.gov.ph/content/public-advisory-101 ; https://psaserbilis.com.ph/GetFaQs ; https://psaserbilis.com.ph/TermandCondition ; https://psahelpline.ph/ ; appointment portal: https://appointment.psa.gov.ph/

Evidence status: channels and walk-in appointment rule VERIFIED; Serbilis exact price/inclusions PARTIALLY VERIFIED. Last source check: 2026-10-19.

3.8 Department of Foreign Affairs (DFA) passport

Purpose and scope: travel document for eligible applicants; optional/goal-specific unless a particular role or circumstance requires it. This is not a universal job prerequisite.

Step-by-step application guide:

30. Use the official appointment portal and confirm the case-specific checklist for an adult-new, renewal, minor, or other application type.

31. The current appointment page confirms online appointment booking is free and lists categories that may qualify for no-appointment service.
32. Check the fee, convenience charge, courier/delivery option and release estimate shown for the chosen site and transaction before publication or payment.

Fees/time: appointment booking is ₱0; this does not mean passport issuance is free. Current issuance fees, convenience/courier charges and delivery windows remain unresolved because the current Charter URL returned 404 and the adult-new checklist PDF returned 403. Indexed-only figures (including ₱950/₱1,200 and quoted processing windows) are not treated as verified.

Sources: https://passport.gov.ph/appointment ; https://dfa.gov.ph/images/2025/transparency/DFA_Citizens_Charter_2025_1st_Edition_1.pdf ; https://manamape.dfa.gov.ph/images/2024/Consular_Services/PASSPORT_REQUIREMENTS_JULY_2025/1__BASIC_REQUIREMENTS_FOR_ADULT_NEW_APPLICATIONS_.pdf

Evidence status: appointment rule VERIFIED; issuance fees/timings/checklist completeness PARTIALLY VERIFIED or UNVERIFIED. Last source check: 2026-10-19.

3.9 Land Transportation Office (LTO) Student-Driver's Permit

Purpose and scope: conditional driving-related document for someone intending to learn to drive. It is not part of the default First Job path.

Step-by-step application guide:

33. Before showing a route, check current eligibility, age, TDC completion, medical certificate, application form and current licensing-office requirements.
34. Use the official LTO source for the current student-permit application; do not treat the LTO eLearning/TDC portal as proof of permit booking.
35. Confirm the current fee with a directly readable current Charter or licensing office before showing a total.

Fees/time: current total is unresolved. An indexed older Driver's Manual table gives ₱317.63 (₱100 application + ₱67.63 computer + ₱150 permit), while older Charter indexed text gives ₱250; the current 2025 Charter returned 403 and the manual could not be directly opened. Older age snippets are not treated as current confirmation.

Sources: https://lto.gov.ph/wp-content/uploads/2025/09/LTO-CC-2025-External.pdf ; https://lto.gov.ph/wp-content/uploads/2023/10/FDM-Vol.-1-2nd-Edition.pdf ; https://portal.lto.gov.ph/ords/f?p=ELEARNING:HOME

Evidence status: PARTIALLY VERIFIED; current fee, eligibility and service time unresolved. Last source check: 2026-10-19.

4. Findings: Employment dependencies and conditionality

Category	Evidence-based interpretation	Product rule / do not infer
Employment-related / employer-assisted	SSS number and coverage; PhilHealth formal employee record/reporting; Pag-IBIG membership; BIR TIN registration for the scoped first-time local compensation employee.	Use HR/employer-assisted branches where agency instructions say so; do not present every item as an independent walk-in task.
Existing identifiers first	SSS Number; PhilHealth PIN; Pag-IBIG MID/RTN; TIN.	Recovery/inquiry must precede new registration suggestions whenever an identifier may already exist.
Conditional NBI	NBI Clearance only if needed for the job/application; FTJS route only for eligible applicants under RA 11261.	Do not imply everyone needs NBI or qualifies for the fee waiver.
Identity/civil registry support	PhilSys National ID and PSA Birth Certificate may support identity/documentation workflows.	Acceptance depends on the receiving agency's current list; an accepted identity document does not automatically create a dependency.
Goal-specific optional	DFA passport; LTO Student-Driver's Permit.	Passport relates to travel; student permit relates to driving. Neither is a universal employment prerequisite.
Verified source dependency	PSA Birth Certificate is listed as a core supporting document in the adult-new passport route in the sourced checklist lead,	Keep the dependency conditional on application type and recheck the current DFA checklist before publication.

Category	Evidence-based interpretation	Product rule / do not infer
	but full current checklist was not directly readable.	

5. Source register and traceability

The register below is authoritative for this edition. “Verified” is reserved for the specific narrow claim directly supported by inspected content. The actual source-check date is 2026-10-19 unless a row says otherwise.

Process / source	Direct URL and source title	Specific claim / inspected evidence	Status, date and limitation
SSS	Become an SSS Member — https://www.sss.gov.ph/become-an-sss-member/	Online/E-Center flow, five-day email link, optional supporting upload, temporary-to-permanent distinction and existing-number recovery are described on the information page.	VERIFIED for page claims; linked member portal timed out. Checked 2026-10-19.
SSS	Employees/coverage — https://www.sss.gov.ph/employees/	Coverage context is distinct from number issuance.	VERIFIED for inspected page claims. Checked 2026-10-19.
PhilHealth	Formal employee registration — https://www.philhealth.gov.ph/members/formal/registration.php	No-PIN employee: two PMRF copies to HR; existing PIN goes to employer for ER2; employer remits premiums.	VERIFIED for formal-economy employee scope. Checked 2026-10-19.
PhilHealth	Employer reporting — https://www.philhealth.gov.ph/partners/employers/report.php	ER2 reporting for newly hired employees within 30 days from assumption.	VERIFIED for employer reporting scope. Checked 2026-10-19.
Pag-IBIG	Online Membership Registration — https://www.pagibigfundservices.com/OnlineMembershipRegistration	Visible National ID liveness/QR route and alternative route without National ID.	PARTIALLY VERIFIED: UI visible; not evidence of API, instant MID or guaranteed service time. Checked 2026-10-19.
Pag-IBIG	Be a Member — https://www.pagibigfundservices.com/virtualpagibig/Membership.aspx	Registration and MID verification routes are offered.	PARTIALLY VERIFIED: full current Charter/employer/manual route, fees and time remain open. Checked 2026-10-19.
Pag-IBIG	MID Inquiry — https://www.pagibigfundservices.com/virtualpagibig/MIDInquiry.aspx	Inquiry asks for RTN, last name and birthdate.	VERIFIED for displayed inquiry fields; not an issuance-time promise. Checked 2026-10-19.
Pag-IBIG	MDF V12 — https://www.pagibigfund.gov.ph/document/pdf/dlforms/providentrelated/PFF039_MembersDataForm_V12.pdf	Official indexed text identifies V12 dated 11/2024; direct PDF access triggered CAPTCHA.	PARTIALLY VERIFIED / indexed-only for form details. Checked 2026-10-19.
BIR	2026 Citizen’s Charter — https://bir-cdn.bir.gov.ph/BIR/pdf/BIR%20Citizen%27s%20Charter%20%282026%20Edition%29v2.pdf	Pages 2–6: scoped first-time hired employee route, ten-day deadline, employer/ORUS, manual Form 1902 fallback, no processing fee, stated 3-day online/6-hour manual service standards.	VERIFIED for stated employee scope. Charter directly opened. Checked 2026-10-19.
BIR	2025 Checklist of Documentary Requirements — https://bir-cdn.bir.gov.ph/BIR/pdf/CDR%20-%202025%20%281%29.pdf	Page 8, CDR F1102: employer/ORUS route, manual Form 1902, supporting documents and no fee.	VERIFIED for inspected checklist passage. Checked 2026-10-19.
BIR	ORUS — https://orus.bir.gov.ph/	Official portal URL; transaction body did not expose readable content in the audit.	PARTIALLY VERIFIED: Charter supports route; live UI not tested. Checked 2026-10-19.
NBI	Standard Clearance Citizen’s Charter — https://nbi.gov.ph/citizens-charter/nbi-clearance-application/	Lines 42–88: two government IDs, online/walk-in steps, fee figures ₱115/₱165/₱415 without clear category mapping.	PARTIALLY VERIFIED: fee mapping and general validity unresolved. Checked 2026-10-19.
NBI	How to Apply — https://nbi.gov.ph/how-to-apply-nbi-clearance/	Lines 42–82: online profile, branch/time, payment reference, ₱130 base plus e-payment charge “usually around ₱25–₱30”, two IDs, FTJS Oath and original barangay certificate in person.	VERIFIED for wording; fixed ₱155 total and one-year validity not supported. Checked 2026-10-19.
NBI	FTJS Citizen’s Charter — https://nbi.gov.ph/citizens-charter/nbi-clearance-first-time-job-seekers/	Free route, Barangay Certification, two IDs/acceptable certificates, in-person biometrics and HIT/QC exception; Oath omitted from Charter checklist.	PARTIALLY VERIFIED: Oath conflict remains. Checked 2026-10-19.
NBI / Lawphil	RA 11261 — https://lawphil.net/statutes/repacts/ra2019/ra_11261_2019.html	Statutory framework for eligible First-Time Job Seeker fee exemption and conditions.	VERIFIED for directly inspected legal text; Lawphil is a reproduction, not government host. Checked 2026-10-19.
DOLE	Form 2 Oath of Undertaking — https://www.ble.dole.gov.ph/wp-content/uploads/2022/06/FORM2-Oath-of-Undertaking-asof16June2021.pdf	Official indexed form text, revised 2021-06-16; direct access timed out.	PARTIALLY VERIFIED / indexed-only. Checked 2026-10-19.

Process / source	Direct URL and source title	Specific claim / inspected evidence	Status, date and limitation
PhilSys	Registration process — https://philsys.gov.ph/registration-process/	Official page identified; direct access returned 403.	PARTIALLY VERIFIED; complete current process not directly inspected. Checked 2026-10-19.
PhilSys	Supporting documents — https://philsys.gov.ph/supporting-documents/	Official page returned 403; exhaustive current accepted-document list not verified.	UNRESOLVED for complete current list. Checked 2026-10-19.
PhilSys	Registration landing page — https://maintenance.register.philsys.gov.ph/	Page stated online Step 1 disabled and referred users to walk-in registration/supporting documents.	PARTIALLY VERIFIED; confirm current availability before travel. Checked 2026-10-19.
PSA	Birth Certificate service page — https://psa.gov.ph/birth-certificate	Lines 332–347: Census Serbilis Centres, appointment required for walk-in, channel references and service details.	VERIFIED for channels/appointment rule; no universal fee established. Checked 2026-10-19.
PSA	Public advisory — https://psa.gov.ph/content/public-advisory-101	Released 2026-02-20; says redesigned Serbilis site operational; does not state ₱330 price.	VERIFIED for site-status statement only; not price evidence. Checked 2026-10-19.
PSA Serbilis	FAQ — https://psaserbilis.com.ph/GetFaQs ; Terms — https://psaserbilis.com.ph/TermandCondition	URLs resolved but substantive body did not render; indexed text mentions ₱330 and inclusions.	PARTIALLY VERIFIED / indexed-only; exact price/inclusions unresolved. Checked 2026-10-19.
PSAHelpline	https://psahelpline.ph/	Opened page showed a different ₱365 price and delivery information.	VERIFIED for page-displayed channel-specific price; must not generalize to Serbilis. Checked 2026-10-19.
DFA	Appointment portal — https://passport.gov.ph/appointment	Page redirects to passport.gov.ph; lines 56–63 show no-appointment categories and lines 90–93 state appointment booking is free.	VERIFIED for appointment booking only; not issuance fee or delivery. Checked 2026-10-19.
DFA	2025 Citizen's Charter — https://dfa.gov.ph/images/2025/transparency/DFA_Citizens_Charter_2025_1st_Edition_1.pdf	Direct open returned 404; indexed excerpts do not establish current issuance fees/time.	UNRESOLVED for current fees, timings and delivery. Checked 2026-10-19.
DFA	Adult-new checklist — https://manamape.dfa.gov.ph/images/2024/Consular_Services/PASSPORT_REQUIREMENTS_JULY_2025/1__BASIC_REQUIREMENTS_FOR_ADULT_NEW_APPLICATIONS_.pdf	Official URL returned 403; indexed text is not treated as direct verification.	PARTIALLY VERIFIED; current full checklist unresolved. Checked 2026-10-19.
LTO	2025 Citizen's Charter — https://lto.gov.ph/wp-content/uploads/2025/09/LTO-CC-2025-External.pdf	Official URL returned 403; current fee and service details not directly inspected.	UNRESOLVED for current fee/eligibility/time. Checked 2026-10-19.
LTO	Driver's Manual — https://lto.gov.ph/wp-content/uploads/2023/10/FDM-Vol.-1-2nd-Edition.pdf	Indexed table states ₱317.63 itemization, but PDF could not be directly opened; older Charter indexed text states ₱250.	CONFLICTING / historical indexed-only; do not publish as current fee. Checked 2026-10-19.
LTO	eLearning/TDC — https://portal.lto.gov.ph/ords/f?p=ELEARNING:HOME	Portal opened and appeared to be TDC/eLearning, not permit booking.	VERIFIED for portal purpose only. Checked 2026-10-19.
Requisito project contract	README — https://raw.githubusercontent.com/UIC-CCS-WEB-DEVELOPMENT-2026-2027/requisito/main/README.md ; data contract — https://raw.githubusercontent.com/UIC-CCS-WEB-DEVELOPMENT-2026-2027/requisito/main/docs/data-contract.md	Existing report records the documented schema and Issue #56 scope. Repository/application code was not inspected in this finalization.	Source details preserved from existing research file; no code-level validation claimed. Checked 2026-10-19 per existing report.

6. Conflicts, uncertainty, and research gaps

Issue	Evidence state	Status	Publication decision / next action
NBI standard fee and validity	How-to states ₱130 base plus usually ₱25–₱30 e-payment charge; Charter lists ₱115/₱165/₱415 without mapping; no current general validity statement inspected.	PARTIALLY VERIFIED / UNRESOLVED	Do not publish fixed ₱155 total or one-year validity. Obtain NBI fee-category mapping and current validity confirmation.
NBI FTJS Oath/Form 2 handling	How-to says bring signed Oath and original Barangay Certification in person; FTJS Charter checklist omits Oath; no upload requirement found.	PARTIALLY VERIFIED / CONFLICT IN CHECKLIST	Bring documents in person per how-to; obtain current written NBI confirmation whether Form 2 is retained/submitted at counter.

Issue	Evidence state	Status	Publication decision / next action
Pag-IBIG workflow, fees, time, API and instant MID	Registration UI shows National ID QR/liveness and no-National-ID route; MID Inquiry uses RTN/surname/birthdate. Full current Charter/manual/employer workflow not readable.	PARTIALLY VERIFIED / UNRESOLVED	Confirm readable current Charter and route. Do not claim public API, Requisito integration, instant MID, or 15-minute walk-in.
PhilSys complete accepted-document list	Dedicated supporting-document page returned 403; other content does not establish exhaustive current list.	UNRESOLVED	Obtain directly readable current official list or confirmation before publishing an exhaustive checklist.
DFA issuance fee and processing/delivery windows	Appointment page confirms booking is free; current Charter returned 404 and checklist PDF 403. Indexed fees/times are insufficient.	PARTIALLY VERIFIED / UNRESOLVED	Confirm live transaction amount and selected office/courier instructions from a readable current official source.
LTO Student-Driver's Permit fee and eligibility	Indexed older manual suggests ₱317.63; older Charter indexed text suggests ₱250; current 2025 Charter returned 403. Age/checklist details not directly reverified.	CONFLICTING / UNRESOLVED	Obtain readable current Charter or licensing-office confirmation; do not hard-code historic fees or service time.
PSA Serbilis exact price and inclusions	PSA service page confirms channels and walk-in appointment; Serbilis FAQ/terms body did not render. PSA advisory is not price evidence; PSAHelpline shows different channel price.	PARTIALLY VERIFIED / UNRESOLVED	Confirm channel-specific price, copy tier, fulfillment method, tax/delivery inclusions from readable official Serbilis page or live checkout.
BIR manual fallback / deadline scope	2026 Charter directly supports the ten-day, no-fee route for first-time hired employees without TIN and purely compensation income in Philippines; manual Form 1902 fallback also stated.	VERIFIED WITH SCOPE LIMIT	Keep the narrow applicability and manual fallback. Do not generalize to all TIN applicants.
Schema naming variation	Existing contract states camelCase fields; any alternate snake_case naming mentioned elsewhere is inconsistent and requires team decision.	OPEN PRODUCT DECISION	Preserve documented contract; do not silently reconcile field names.

7. Data model and implications for Requisito

The repository data contract specifies these Requirement fields: id, goalId, label, notes, copies, sourceUrl, lastVerified, and status. In the current contract, lastVerified is a YYYY-MM-DD source-check date; status is a user-facing completion state ('unverified' or 'done'), not an evidence-quality rating.

Field	Meaning / rule
id	Stable numeric catalogue key; not a government identifier.
goalId	Keep current numeric convention (First Job = 1) unless the team approves a change.
label	Short document/process name; include conditional qualifiers where appropriate.
notes	Practical steps, conditions, caveats, source confidence and recovery instructions.
copies	Only assert a quantity when verified; do not assume a universal count.
sourceUrl	Use a primary official URL supporting the specific requirement. Leave empty when not sufficiently verified under the current contract.
lastVerified	Actual source-check date only; never copy a fixture date or source publication date as proof.
status	User completion only: `unverified` or `done`. Research confidence is not an app status.

Schema inconsistency: if any source or proposed code uses `source_url` or `last_verified_at` instead of documented `sourceUrl` or `lastVerified`, record it for a team decision. No field rename, removal, or addition is authorized by this report.

Data-quality rule: where a person may already have an identifier, the product should recommend checking or recovering the existing record before starting a new registration for SSS, PhilHealth, Pag-IBIG, or TIN. This is a product-safety recommendation grounded in the agency-process research, not a claim that all registration pathways are identical.

Agency UI boundaries: a visible National ID QR/liveness route does not establish a public API, data-sharing permission, automated lookup, or Requisito integration. Do not claim implementation without code inspection and appropriate authorization.

Repository observation: the uploaded source ZIP was inspected read-only. The visible React checklist uses six sample requirement rows with empty sourceUrl values and does not call the tested planner helper; the repository's conditional NBI rule therefore is not reflected in the visible checklist. This paper documents the research and data handoff but does not modify the application source.

8. Discussion

The evidence supports a conditional, evidence-linked planner rather than a checklist that presents every document as universally required. SSS, PhilHealth, Pag-IBIG, and TIN workflows should distinguish individual registration from employer reporting and should prompt users to recover existing identifiers where appropriate. NBI Clearance should be shown conditionally when the employer or application requires it, with the First-Time Job Seeker exemption limited to eligible applicants. A PSA birth certificate and PhilSys National ID may support identity processes but should not be framed as prerequisites for every job. Passport and student-driver’s permit processes are goal-specific rather than default employment requirements.

The data model must distinguish a source URL from proof that every claim has been verified. A populated sourceUrl and lastVerified date improve traceability, but notes should retain scope and uncertainty, and conflicting official sources should be recorded explicitly. In the repository’s current contract, the task wording source_url and last_verified_at maps semantically to sourceUrl and lastVerified; the project schema should not be silently changed.

The research has practical limits. No agency confirmation or end-to-end transaction was conducted, and current fee, processing-time, eligibility, and accepted-document details remain unresolved for several processes. Accordingly, the data handoff uses cautious notes and keeps record status unverified. The paper should be treated as a research and implementation handoff, not a guarantee that every agency pathway is settled.

9. Conclusion and recommendations

The research indicates that a reliable First Job planner must represent requirements as conditional, traceable data rather than a fixed universal list. It should identify the responsible actor (jobseeker or employer), the relevant route, eligibility limits, and whether a process is mandatory for the person’s specific goal.

Before production release, verify unresolved claims directly with the relevant agencies, record the exact source-check date for each requirement, preserve conflicts in the evidence register, and keep fees or processing times blank or explicitly unconfirmed until supported. Populate the repository’s six First Job records using the documented schema and connect the visible checklist to the planner logic in a separate code change.

Appendix A. First Job data handoff and acceptance crosswalk

Purpose. This section converts the research findings into the six First Job Requirement records currently represented by src/data/requirements.js. It addresses the task acceptance criteria without claiming that unresolved government procedures, fees, or document details are fully verified.

A.1 Data-field naming and interpretation

The repository's docs/data-contract.md is the controlling schema for this handoff. It explicitly defines Requirement fields as id, goalId, label, notes, copies, sourceUrl, lastVerified, and status, and says not to add or rename fields. Therefore, use sourceUrl and lastVerified in project records. The task wording source_url and last_verified_at is treated as a semantic acceptance criterion, not permission to change the agreed schema: source_url maps to sourceUrl, and last_verified_at maps to lastVerified. If the team intended literal snake_case fields instead, that requires an explicit schema decision before code changes; this document does not silently rename fields.

lastVerified is the date this requirement's primary official source was checked, not proof that every claim in the notes is fully resolved. status remains 'unverified' because the current data contract defines status as a user-facing requirement

completion state ('unverified' or 'done'), not an evidence quality label. Evidence quality and conflicts remain documented in the research/source registers.

A.2 First Job requirement records

These are the six records in the current React data contract. Numeric id values are internal catalogue keys only; they are not government ID numbers. No real personal ID numbers are included.

Requirement record 1: Birth certificate

id	1
goalId	1
label	Birth certificate
notes	PSA civil-registry document; obtain through an authorized PSA channel when needed. Not a universal prerequisite for every job or registration. Verify channel-specific fees and accepted digital/printed formats before publication.
copies	1
sourceUrl	https://psa.gov.ph/birth-certificate
lastVerified	2026-10-20
status	unverified

Requirement record 2: TIN

id	2
goalId	1
label	TIN
notes	Check for an existing TIN first; never create a duplicate. The 2026 BIR Charter's no-fee/within-10-days route applies only to first-time hired employees without a TIN earning purely compensation income in the Philippines. Other applicant categories need separate verification.
copies	1
sourceUrl	https://bir-cdn.bir.gov.ph/BIR/pdf/BIR%20Citizen%27s%20Charter%20%282026%20Edition%29v2.pdf
lastVerified	2026-10-19
status	unverified

Requirement record 3: SSS number

id	3
goalId	1
label	SSS number
notes	Check/recover an existing SS Number before registering. Number issuance is distinct from employer reporting and the start of employee coverage. Use the official SSS route; do not imply every jobseeker needs a new number.
copies	1
sourceUrl	https://www.sss.gov.ph/become-an-sss-member/
lastVerified	2026-10-20
status	unverified

Requirement record 4: PhilHealth number

id	4
goalId	1
label	PhilHealth number
notes	Check for an existing PhilHealth Identification Number (PIN). For formal employment, a newly hired employee without a PIN submits two PMRF copies to HR; an employee with a PIN gives it to the employer for ER2

	reporting. Employee and employer steps must remain distinct.
copies	1
sourceUrl	https://www.philhealth.gov.ph/members/formal/registration.php
lastVerified	2026-10-20
status	unverified

Requirement record 5: Pag-IBIG number

id	5
goalId	1
label	Pag-IBIG number
notes	Check/recover an existing MID or Registration Tracking Number first. Official registration and inquiry routes are available, but current fee, timing, and full employer/manual workflow remain unresolved; do not promise instant issuance or a fixed walk-in duration.
copies	1
sourceUrl	https://www.pagibigfundservices.com/OnlineMembershipRegistration
lastVerified	2026-10-19
status	unverified

Requirement record 6: NBI clearance

id	6
goalId	1
label	NBI clearance
notes	Conditional: include only when required for the specific job/application. Eligible First-Time Job Seekers may qualify for the statutory fee exemption. The official how-to page says to bring a signed Oath of Undertaking, while the FTJS Charter checklist omits it; this conflict remains flagged and must not be guessed away.
copies	1
sourceUrl	https://nbi.gov.ph/how-to-apply-nbi-clearance/
lastVerified	2026-10-20
status	unverified

A.3 Conflicting sources and unresolved claims

The following conflicts and limitations remain explicit. They are not resolved by selecting a convenient value. The primary sourceUrl above is the best official starting point for each record; related sources and claim-level evidence remain in Sections 5 and 6.

Requirement / issue	Conflict or limitation	Required treatment
NBI Clearance — FTJS Oath/Form 2	NBI's how-to page instructs eligible FTJS applicants to bring a signed Oath of Undertaking; the FTJS Citizen's Charter checklist does not list it.	Flag as a source discrepancy; follow the current agency's written instructions and seek confirmation. Do not silently delete or assert the Oath requirement as settled.
NBI standard fee and validity	The how-to page and standard Charter present fee information differently; the Charter's listed fee categories are not clearly mapped. General validity was not confirmed.	Do not publish a single fixed total or general validity period until NBI confirms the current category mapping.
BIR TIN route	The no-fee and 10-day route is supported only for a defined class of first-time hired employees without an	Keep this scope in notes; do not generalize it to all TIN applicants.

Requirement / issue	Conflict or limitation	Required treatment
	existing TIN who earn purely compensation income in the Philippines.	
Pag-IBIG MID workflow	Registration and MID inquiry interfaces were observed, but the complete current Charter/manual/employer route, fees, and service time were not fully verified.	Keep fee/time unconfirmed and do not promise instant MID issuance, an API, or a fixed walk-in duration.
PSA birth certificate fees and formats	Official PSA channels have different products and prices; the ₱330 Serbilis price must not be transferred to another channel or treated as a universal total.	Identify the chosen official channel and product before stating fee, delivery, or digital/printed format details.
Schema field naming	Task text uses source_url and last_verified_at; the checked-in data contract specifies sourceUrl and lastVerified and forbids field renames.	Preserve the repository contract pending explicit team approval; record this mapping in the handoff.

A.4 Acceptance checklist

Acceptance criterion	Result
Research items in scope	PASS — the six current First Job catalogue records are represented; the wider paper separately researches nine processes.
Each record has a primary official source URL	PASS — all six records above have a populated sourceUrl.
Each record has a source-check date	PASS — all six records above have a YYYY-MM-DD lastVerified value matching the source-check date recorded for that primary source.
Conflicting sources flagged rather than guessed	PASS WITH OPEN ISSUES — known discrepancies are explicitly listed in Section 11.3 and the consolidated conflict register; unresolved items remain unresolved.
No real ID numbers in the file	PASS — ids 1–6 are internal catalogue keys only; no personal government ID numbers are included.
Exact schema preserved	PASS — uses the checked-in camelCase contract and records the task's snake_case wording as a mapping, not a field rename.

Release interpretation: this completes the research-document handoff for the task's source/date and conflict-recording criteria. It does not certify every fee, processing time, eligibility rule, or full document checklist as resolved, and it does not itself update src/data/requirements.js. The repository records must be populated separately if the assignment expects the code/data file to be changed.

This paper consolidates source-based research on nine Philippine government-document processes that may be relevant to people preparing for a first job: SSS, PhilHealth, Pag-IBIG, BIR, NBI Clearance, PhilSys National ID, PSA Certificate of Live Birth, DFA passport, and LTO Student-Driver's Permit. Official agency pages, Citizen's Charters, and forms were prioritized. The findings emphasize that these processes are not one universal mandatory checklist: some are employment-related, some are conditional, and others depend on a person's separate goals. A six-record data handoff is included for the current Requisito First Job catalogue, with source URLs, source-check dates, scoped notes, and explicitly documented conflicts. Several fees, service times, and procedural details remain unresolved and are identified as research gaps rather than guessed.
